Join Technic at Surface Finishing Mexico 2025 for Live Demonstrations of Finishing Technologies

Cranston, RI — Technic will be exhibiting at Surface Finishing Mexico (SFM) 2025, taking place November 5–6, 2025, at Cintermex, Monterrey, Nuevo León, Mexico. Recognized as the leading event for industrial surface finishing and coatings in Mexico, SFM brings together experts and innovators from the electroplating, anodizing, and E-Coat sectors.

Technic will showcase its comprehensive range of surface finishing solutions, featuring proprietary process chemistries, precision-engineered equipment, and advanced analytical services. Designed for maximum performance and reliability, Technic's technologies serve a wide array of industries, including automotive, aerospace, jewelry, industrial, medical devices, and electronics.

Throughout the event, live demonstrations will highlight Technic's Cataphoretic Lacquers processing, showcasing the precision, consistency, and exceptional finish quality achievable through Technic's integrated chemistry and equipment.

"Surface Finishing Mexico provides an ideal platform to engage directly with industry professionals and demonstrate how Technic's solutions support high-performance surface finishing across multiple applications."

- Claudia Mosher, Regional Manager, U.S. Midwest and Mexico.

Don't miss the opportunity to experience Technic's technologies in action—visit **Booth #404** to meet with Technic's technical experts and explore solutions that enhance efficiency, quality, and sustainability in finishing operations.

About Technic: For over 80 years, Technic has been a global supplier of specialty chemicals, custom finishing equipment, engineered powders, and analytical control systems to the semiconductor, electronic component, printed circuit board, industrial finishing, and decorative industries.
