Join Technic for the Premier North American Semiconductor Event at SEMICON West

Phoenix, AZ – Technic, a global leader in advanced semiconductor fabrication and packaging solutions, is excited to announce its participation in **SEMICON West 2025**, taking place at the Phoenix Convention Center from October 7–9. Attendees are invited to visit **Booth #1592** to explore Technic’s [Elevate® Copper](#) plating chemistries, [Semcon®](#) electroplating tools, [photoresist strippers](#), [metal etchants](#), [cleaners](#), high-purity wet chemistry, and semiconductor manufacturing equipment.

SEMICON West 2025 positions Phoenix as a major technology hub, bringing together industry leaders, startups, and researchers to foster collaboration, knowledge sharing, and workforce development. Technic’s presence highlights its commitment to advancing semiconductor manufacturing. As the industry moves toward more complex packaging, the demand for high-performance copper plating and reliable process tools grows. Technic’s **Elevate® Copper products** deliver high-speed plating, excellent coplanarity, and low deposit roughness, while the **Semcon® series** offers flexible electroplating tools to support a wide range of semiconductor applications. In addition, Technic provides [photoresist strippers](#), [metal etchants](#), and [cleaners](#) designed for wafer-level surface preparation, offering high performance, metal compatibility, and extended bath life to support efficient and reliable processes.

“We are thrilled to be part of SEMICON West in Phoenix. This event provides an unparalleled opportunity to connect with industry partners, showcase our latest solutions, and demonstrate how Technic helps manufacturers meet the challenges of today’s semiconductor landscape.”

– Robert Kavanagh, Vice President of Corporate Business Development

Don’t miss us at Booth #1592! We look forward to meeting you and discussing how our solutions can advance your semiconductor manufacturing processes.
