## Technic to Exhibit at MD&M West 2026, Featuring Surface Finishing Technologies

**Cranston, Rhode Island, USA** – Technic, a global leader in metal finishing technologies and precision-engineered manufacturing solutions, will exhibit at **MD&M West 2026**, taking place at the **Anaheim Convention Center in Anaheim, California**. Attendees are invited to visit **Technic at Booth #876**, where the company will showcase advancements in **electropolishing, anodizing, titanium anodizing, and passivation**—critical surface finishing technologies engineered to improve product performance, support corrosion resistance, and meet the demands of high-reliability manufacturing.

MD&M West is one of the most comprehensive manufacturing events in North America, bringing together **1,700+ exhibitors**, breakthrough innovations, and industry leaders across engineering, R&D, manufacturing, and operations. Formerly known as Informa Markets Engineering West, the event unites five major sectors—**MedTech, Automation, Design & Manufacturing, Plastics, and Packaging**—and serves as a central destination for professionals seeking to enhance processes, discover new capabilities, and build relationships with leading suppliers.

Technic's presence at MD&M West 2026 will focus on helping manufacturers solve complex finishing challenges through proven and emerging surface treatment solutions. **Electropolishing technologies** will be highlighted for their ability to enhance surface smoothness and cleanliness, while **anodizing and titanium anodizing solutions** will demonstrate controlled surface layer formation that supports durability, performance, and consistent finishing results. **Passivation processes** will also be featured as a key process for optimizing corrosion resistance and extending the life of critical components across demanding applications.

MD&M West 2026 includes hands-on demonstrations, educational sessions, and access to leading suppliers across the full manufacturing ecosystem. Technic experts will be available throughout the event to discuss application needs, process requirements, and solutions tailored to specific manufacturing challenges.

**About Technic:** For over 80 years, Technic has been a global supplier of specialty chemicals, custom finishing equipment, engineered powders, and analytical control systems to the semiconductor, electronic component, printed circuit board, industrial finishing, and decorative industries. Technic is also a major supplier of engineered metal powders to the solar industry.
