Technic to Showcase Advanced Finishing Solutions at SUR/FIN 2025

Cranston, Rhode Island, USA — Technic is returning to the National Association for Surface Finishing's SUR/FIN® 2025 Exposition, taking place in Chicago, Illinois. As a global leader in innovative metal finishing technologies, Technic will highlight its latest advancements in specialty chemicals and high-performance equipment for industrial, electronic, and decorative finishing applications.

SUR/FIN is the premier conference and trade show exclusively dedicated to the surface technology industry. It brings together leading business executives, technology experts, and innovators to tackle current challenges, explore innovative solutions, and showcase the latest advancements. As the essential forum for industry professionals, SUR/FIN fosters connection, collaboration, and drives the future of surface finishing.

Visitors to **Booth #626** will have the opportunity to explore the patented Spouted Bed® Electroplater (SBE), a cutting-edge solution for high-throughput electroplating of small components such as chip capacitors, resistors, pins, and connectors. Also featured will be Technic's MP500 Electropolishing System, offering precision and efficiency for high-value metal parts.

New this year, Technic will present upgrades to its anodizing equipment line and enhancements to its continuous process systems for both loose parts and reel-to-reel, roll-to-roll production.

Technic is also pleased to welcome our partner, Harter GmbH, to **Booth #626**. Harter, a specialist in energy-efficient drying technologies, will be available to discuss their innovative condensation-based drying systems that help manufacturers reduce energy consumption while achieving superior drying results. This collaboration reflects our shared commitment to offering complete, sustainable finishing solutions.

"Our team is excited to share how our solutions support evolving industry needs with precision, efficiency, and sustainability."

- *Peter Ribbans, VP / General Manager, Technic Equipment Division at Technic.*

Join us at Booth #626 to meet with our experts and learn how Technic's integrated solutions can meet your most demanding finishing challenges.

About Technic

Technic Inc. is a Rhode Island based corporation with over 1,100 employees worldwide. For 80 years, Technic has been a global supplier of specialty chemicals, custom finishing equipment, engineered powders, and analytical control systems to the semiconductor, electronic component, printed circuit board, industrial finishing, and decorative industries.
